101-00521/

Preface

The **Information Resource Manual** provides selected practitioner and subscriber fee-for-service based statistics produced by the Information and Analysis Branch, Information Management Group. The manual is a quick reference for some of the most frequently asked questions about Medical Services Plan data.

The Branch gratefully acknowledges the many individuals who contributed their advice and assistance in the compilation and presentation of this material. Please report any errors or omissions directly to the Information and Analysis Branch.

This is the third **Information Resource Manual** published in this format. An evaluation form is provided at the back of this manual for your comments and suggestions in improving future editions. Please complete the evaluation form and send it by facsimile to (250) 952-0979. Additional questions, comments or suggestions regarding this report may be directed to:

Manager, Data Access Section

GLOSSARY 102

READERS' COMMENTS 105

Introduction

The **Information Resource Manual** contains statistics based on fee-for-service payments that are made to British Columbia practitioners for services provided to MSP Subscribers (see the Glossary at the back of this manual for a definition of MSP Subscriber and other health care terms). The manual is arranged into three major sections. The first section, British Columbia Health Groupings, provides maps of Local Health Areas, Health Regions, Regional Health Boards, Community Health Councils, and Community Health Services Societies. The second section, Practitioner-Based Information, gives services and amounts by specialty and geographical area. The third section, Subscriber-Based Information, supplies payments and services data by patient age and gender.

To maintain confidentiality, the information given does not disclose personally identifiable data. Services are reported for the fiscal year (April 1 - March 31) in which the services are performed. Readers are encouraged to refer to the glossary for explanations of terms used in this publication.

Fee-for-Service Data

The **Information Resource Manual** is prepared under the following conditions and therefore, it may not necessarily reconcile with other ministry documents such as, the Medical Services Commission **Financial Statements**, or MSP's **Fee-For-Service Payment Analysis**.

- Subscriber-based information and practitioner-based information may not reconcile as both sections are derived using slightly different assumptions. Summaries of these assumptions are found at the beginning of each information section. However, researchers are strongly urged to contact Information and Analysis Branch, Information Management Group for more information.

- The Medical Services Plan pays practitioners on a fee-for-service and an alternative payment basis. Alternative payments are made for contract, salaried and sessional services. This publication deals only with fee-for-service payments and includes only MSP claims.

- Payments that practitioners receive from other agencies for services not covered by MSP are excluded in these statistics. Payments for claims deemed to be the responsibility of other parties (e.g. for services provided in British Columbia to Canadian residents from other provinces) are also excluded in these statistics.

- In 1994/95, the method of calculating MSP recoveries from the Insurance Corporation of British Columbia (ICBC) for medical claims was changed from formula-based to claim-based. For medical claims, this report excludes ICBC claims for 1994/95-1998/99. However, supplementary benefit claims have always been recovered using a

claim-based method. For supplementary benefit claims, this report excludes ICBC claims for 1994/95-1998/99.

- Payments made on behalf of the Workers' Compensation Board and payments made to physicians for services referred by registered midwives are not included in the publication.

- Medical FFS claims were prorated in 1998/1999, in the amount of $52 Million (includes an estimate for NIA proration). Proration is applied to ensure that the cost of medical claims remain within the "available amount".

  A proration rate (i.e. reduction) of 4.4 percent was applied to claims with a date of service between April 1 and November 30, 1998, and a rate of 3.3 percent was applied to claims between December 1, 1998 and January 31, 1999. No proration was applied to claims between February 1 and March 31, 1999.

  Although $52 Million was collected through proration, final reconciliation for 1998/1999 indicated that only a proration amount of $28.8 Million had been required for claims to remain within the available amount. Therefore, in January, 2000, the balance (approximately $23 Million) was returned to all BCMA practitioners who were prorated for services rendered between April 1, 1998 and January 31, 1999. This ensured that the Ministry paid BCMA doctors the total available amount that was negotiated with the BCMA for the 1998/1999 fiscal year.

  The retroactive payment of $23 Million is not included in this report.

- 1998/1999 payments include a 0.5 percent fee increase, effective April 1, 1998.

- 1998/1999 payments include revenue neutrality adjustments made on April 1, July 1 and October 1, 1998.

- 1998/1999 figures include tray fee services.

- 1998/1999 paid services include visit procedural premiums and no charge referrals.

Geographical Divisions

The **Information Resource Manual** reports tables and summaries for the following geographical groupings: Local Health Area (LHA), Health Region (HR), Regional Health Board (RHB), Community Health Council (CHC) and Community Health Services Societies (CHSS).

JAN2000

Practitioner-Based Information

Practitioner-based information provides statistics on physicians who provide services recognised by the Medical Services Plan. The information supplies services and amounts by specialty and geographical area. The statistics used to compile this section are derived under the following conditions:

- Out-of-Province claims are excluded.
- Paid amounts include all payments on or before September 30, 1999 for all fiscal years. This may result in higher practitioner counts, services and total paid amounts than reported in previous Information Resource Manual publications.
- Paid amounts include Northern and Isolation Allowance (a premium on each claim if the practitioner works in isolated communities), rollback (an amount recovered by MSP as a result of over-utilization of the negotiated budget) and any retroactive payments, but exclude interest (on payments owed which are more than 60 days overdue), and any patient visit charges (a charge per visit for some types of supplementary benefits, from 1992/93 to 1993/94, $5; from 1994/95 to 1995/96, $7.50; and effective 1997/98, $10).
- While visit and procedural premiums are not separate services, but rather charges in addition to the principal fee, they are paid as distinct services and therefore reported as distinct services.
- Population figures are from P.E.O.P.L.E. Projection Model (24), as of June 1, 1999.
- Practitioner counts represent the number of distinct British Columbia practitioners who rendered at least one service during the fiscal year for which they received payment on or before September 30, 1999.
- Practitioner specialty is the most recent specialty for which the practitioner was registered, as of the end of the fiscal year.
- Practitioners with unknown postal codes or unassigned to a LHA are classified in 099 UNKNOWN. LHA 888 refers to practitioners or payees with billing addresses in Canada, but outside of British Columbia. LHA 999 refers to practitioners or payees with billing addresses outside of Canada.

Table 1

Subscriber-Based Information

Subscriber-Based Information provides statistics for people registered with the Medical Services Plan. The section supplies patients and services data by patient age and gender. The statistics used to compile this section are derived under the following conditions:

- Paid amounts include all payments on or before September 30 of the following fiscal year (i.e. each fiscal year contains 18 months of payments)
- Paid amounts include Northern and Isolation Allowance (a premium on each claim if the practitioner works in isolated communities), rollback (an amount recovered by MSP as a result of over-utilization of the negotiated budget) and any retroactive payments, but exclude interest (on payments owed which are more than 60 days overdue), and any patient visit charges (a charge per visit for some types of supplementary benefits – from 1992/93 to 1993/94, $5; from 1994/95 to 1995/96, $7.50; and effective 1997/98, $10).
- While visit and procedural premiums are not separate services, but rather charges in addition to the principal fee, they are paid as distinct services and are reported as distinct services.
- Specialty, the practitioner's most recent specialty on the date the claim was submitted, differs from how the specialty is reported in the Practitioner-based information section of this publication.
- Subscribers with unknown postal codes or unassigned to a LHA are classified in 099 UNKNOWN.
- Male/female unknowns may be redistributed in a slightly different order between tables and may not match. However, the combined male and female totals will match between tables.
- Subscriber counts by gender may not match with the previous publications due to redistribution of subscribers with unknown gender. However, total subscriber counts will match with previous publications.
- Total services, amount and patient counts may not match with the previous publications.

Glossary

Community Health Council
A geographical grouping encompassing one or more Local Health Areas (LHAs).

Community Health Services Societies
A geographical grouping encompassing one or more Local Health Areas (LHAs) or one or more Community Health Councils (CHCs).

Fee Item
A numeric code used to identify each service provided by a practitioner. Each fee item has an associated "fee" that is paid to a practitioner for providing the service. The Medical Services Commission approves fee items and their corresponding fees.

Health Region
A geographical grouping encompassing one or more Local Health Areas (LHA). Health Region 099 contains all postal codes that are unknown or unassigned to a LHA

Interest on Paid Amounts
Interest is paid on "paid amounts" that were paid more than 60 days after the claim submission. This applies to both Medical Practitioners and Supplementary Practitioners. Interest is not paid on Northern and Isolation Allowance or Rollbacks.

Local Health Area (LHA)
A geographical grouping roughly corresponding to a school district. In some cases, LHA boundaries may split census and enumeration areas. Each LHA belongs to one Health Region, Regional Health Board and Community Health Council. In practitioner based tables, LHA 888 refers to practitioners or payees with billing addresses in Canada, but outside of British Columbia. LHA 999 refers to practitioners or payees with billing addresses outside of Canada.

Medical Practitioners
Practitioners who provide medical services. See also Supplementary Benefit Practitioners.

Medical Services
All medically required visits to general practitioners and specialists, including laboratory services and diagnostic procedures, X-ray and ultrasound examinations. Medical services are partially funded by the federal government. The remaining

amount of the bill is funded from provincial sources.

Most Recent Specialty Code
Indicates the specialty of a medical or supplementary benefit practitioner. This code is used to place a practitioner into a single specialty only, although the practitioner may be registered in many specialties. This specialty is the most recent specialty in which a practitioner registered. However, when a new practitioner, with more than one specialty with the same graduation dates moves to British Columbia, the Most Recent Specialty may be derived randomly.

Northern and Isolation Allowance (NIA)
An amount paid to an approved practitioner who provides services in an isolated area. The NIA amount is a percentage of the amount paid to the practitioner on each payment run, and is paid at the time of service. NIA varies according to the degree of isolation, from 6.2 per cent to 20 per cent (as of May, 1994). Interest is not paid on NIA.

Out of Province Claims
Out of Province claims include four separate cases:

- A situation where a Canadian visitor in British Columbia receives medical service in British Columbia and that service is initially paid for by MSP. MSP later bills the patient's home province or territory for services rendered, under reciprocal payment agreements.
- A situation where a British Columbia resident receives services in another territory or province, (other than Quebec) and has his/her services paid for by the appropriate agency in that province or territory. The agency later bills MSP for those services performed under reciprocal payment agreements.
- A situation like (2) above, yet the subscriber personally pays for services received. He/she later bills MSP.
- A situation where a British Columbia resident receives services outside Canada or in Quebec. MSP reimburses at British Columbia rates.

Paid Amount
The amount paid by the Medical Services Plan to the practitioner for services rendered.

Patient Visit Charge
A charge per visit for some types of supplementary benefit groups (Chiropractors, Naturopaths, Physical Therapists, Podiatrists, and Massage Therapists). The PVC amount has ranged from $5 in 1992/93 & 1993/94; $7.50 from 1994/95 to 1995/96; and $10 effective 1996/97. The PVC amount is not usually included in sums of paid amount because MSP is not responsible for the payment.

P.E.O.P.L.E. (24) Model
A population estimate run by the Ministry of Finance. Estimates are generated based on the number of BC Hydro connections (updated at each census).

Population
Refers to all residents of British Columbia.

Regional Health Board
A geographical grouping encompassing one or more Local Health Area (LHA). Regional Health Board 099 contains all postal codes that are unknown or unassigned to a LHA.

Retroactive Payments
Payments made at a new fee level for services rendered in the past. Usually this results from services rendered between the expiry of an existing fee agreement and the ratification of a new agreement.

Rollback Amounts
Amounts recovered by MSP as a result of over-utilization of the negotiated budget.

Service Code
Indicates the type of service that is performed by a practitioner. Each service code has one or more fee items associated with it. However, each fee item is associated with one service code only.

Specialists
Medical practitioners whose specialty is not General Practice.

Subscriber
A person registered with British Columbia's Medical Services Plan (MSP).

Supplementary Benefit Practitioners
Practitioners who provide supplementary services, for which the federal government does not provide funding (eg. Massage Therapy, Naturopathy, etc.). The full amount of the bill is funded from provincial sources. See also Medical Practitioners.

Supplementary Services
Services funded by MSP including Chiropractic, Massage Therapy, Naturopathy, Optometry, Physical Therapy and Podiatry.

Readers' Comments

The Information & Analysis Branch welcomes your comments and suggestions on the quality and usefulness of this publication. Your feedback will help us improve future editions. Please take a few minutes to complete and return this evaluation form.

1. What organisation do you work for?

2. What position do you hold in that organisation?

3. How clear are the footnotes and introduction to this guide?
   Very Clear Clear Unclear Very Unclear

4. How often do you anticipate you will consult this publication during a one-year period?
   Several times a day Several times a week Once a week Once a month Once a year

5. Does this publication help you make health-care policy decisions? ☐ No ☐ Yes
   If yes, provide an example:

6. Compared to other publications prepared by this branch, is the quality of this publication:
   Much Better Better Similar Worse Much Worse

7. Are there any other comments you would like us to consider regarding the usefulness and quality of this publication?

8. Can we contact you regarding this evaluation? ☐ No ☐ Yes
   If yes, please provide your name: _____
   Please provide your telephone number: _____

Please send this evaluation form by facsimile to: (250) 952-0979
Thank you for helping us improve our publication.
